ROSES

*Exquisite Grace
and Beauty*

DEPENDABLE
FIELD GROWN

Every Bush Has Already
Bloomed In Our Nursery

When buying Roses insist on 2 year, No. 1, field grown Roses. You will find them more satisfactory and permanent and you will have an abundance of bloom for a lifetime.

Finger Lakes' Roses will be sent to you all pruned and ready to plant. Select an open situation where there is a good circulation of sunshine and air, and plant about two feet apart. The frequent use of soap suds is very beneficial to Roses. When leaves are about the size of your finger nail use a kerosene emulsion, spraying the under side of the leaves as well.

Hybrid Perpetual Roses

ALWAYS DEPENDABLE

In June and July, September and October, these lovely Roses are brilliant with intensely perfumed flowers of richest colors. Always satisfactory in any part of the country.

Prices—Strong, 2 year, field grown Roses, 85c each; 3 for \$2.25; 10 for \$6.75.

These exquisite buds, with their delightful fragrance, can be cut from your own garden, the same season Finger Lakes' Roses are planted.

AMERICAN BEAUTY—Brilliant pink to red, heavily clothed with foliage.

BARON DE BONSTETTIN—Dark, velvety crimson.

CLIO—Satiny flesh, with pink center. Cup-shaped. Beautifully enhanced by a rosette of foliage.

FRAU KARL DRUSCHKI—A perfect double, pure white Rose. Truly the "Snow Queen."

GENERAL JACQUEMINOT—Brilliant scarlet crimson—blazes like a bonfire.

GEORGE AHREND—A delicate pink; the pink Frau Karl Druschki.

GLORIE LYONNAISE—Rich creamy white, opening to a pale shade of salmon yellow.

MAGNA CHARTA—Beautiful rosy pink. An excellent forcing Rose, only blooms once.

M. P. WILDER—Bright crimson-scarlet.

MRS. JOHN LAING—Clear, bright, shining pink, exquisitely shaded.

PERSIAN YELLOW—Golden yellow.

PAUL NEYRON—A rich, ruddy pink. "Color Spot" of the fall.

ULRICH BRUNNER—An exquisite cherry red.

Our Roses Bloom the Same Season Planted.

RADIANCE

Everblooming Tea Roses

These "Monthly Roses" will bloom continuously from June until frost. In cold climates they should have winter protection of old leaves, etc.

Our stock of Hardy Field Grown Roses is the best the country affords. They are thoroughly tested, have stood two winters in our nurseries, where there is a big variation of climate, are propagated on the hardiest known stock, and every plant has bloomed before sending to our customers. The varieties we offer are the finest and best growing varieties and are bound to give the very best of satisfaction.

IT PAYS TO BUY THE BEST

Prices—\$1.00 each; 3 for \$2.85; 12 for \$10.00.

BETTY—A truly unique color, ruddy gold.

CRUSADER—A bright hue of rich, velvety crimson.

THE GREAT COLUMBIA—Deep peach pink. (See front cover.)

DUCHESS OF WELLINGTON—A novel saffron yellow. Very dependable.

ETOILE DE FRANCE—Massive, cup-shaped flower of clear red or velvety crimson.

GEN. MAC ARTHUR—Brilliant, glowing scarlet crimson, exquisitely perfumed.

GRUSS AN TEPLITZ—A dazzling crimson, with dark velvety sheen.

JONKHEER J. L. MOCK—Imposing, clear pink; reflexed petals of a lighter shade.

KAISERIN AUGUSTA VICTORIA—Large buds of pure white, with a drop of lemon in center.

KILLARNEY—Brilliant, sparkling shell-pink of the most exquisite shade.

LUXEMBURG—Distinctive deep yellow.

LOS ANGELES—Luminous flame pink, toned with coral, shaded translucent gold.

MME. BUTTERFLY—Bright pink, intensified with apricot and gold.

MAD. C. TESTOUT—Satiny rose, deepening to clear red in the center.

MRS. AARON WARD—Most exquisite buds of golden buff in fawn, opening to full, well-developed bloom of pinkish color.

MRS. ROBT. PEARSON—Cardinal red. A crimson Rose flooded with sunshine.

MME. EDOUARD HERRIOT—Coral red, shaded yellow.

OPHELIA—Salmon-flesh, shaded with rose in perfect tints.

RADIANCE, RED—A marvelous Rose of strong, clear red, with no trace of any other color.

SENSATION—An entrancing shade of red.

SOUV. DE C. PERNET—Clear, shining yellow, absolutely free from any orange shading.

SUNBURST—Superb, orange copper or golden orange, with deep orange center.

WILLOWMERE—Rich, shrimp-pink, shading to yellow at center, turning to cream-pink at base of petal.

GRACE MOLYNEUX

The Charming New Rose

Words fail to describe the delicate coloring of this Rose. With its medium-sized blooms of exquisite form in a gorgeous combination of pale apricot and light flesh color, no Rose is more delightful. In intensity and fragrance, it is unsurpassed. A wonderful addition to your Rose Garden. Price, \$2.00 each; 3 for \$5.00.

A PLANTING OF BABY RAMBLERS IN BACK OF
EVERBLOOMING TEA ROSES MAKES AN IDEAL
COMBINATION.

F. J. GROOTENDORST
New Everblooming Red
Rugosa Rose

The most beautiful of the Rugosa Roses. Foliage of the true Rugosa Type, always healthy, clean and attractive, free from mildew. Plants of vigorous but compact growth, ultimately reaching 4 to 5 feet in height. Flowers in clusters, double, with edges beautifully fringed, so that each cluster of bloom resembles a bunch of red carnations. Blooms continuously from early summer until fall. Extremely hardy, thrives everywhere.

Very effective as single specimens, or in foundation plantings to give color contrast throughout the season, and especially valuable for landscape work for mass and hedge planting.

BABY RAMBLER — The low growing, shapely bushes are covered with a gorgeous bloom from June till frost. Red, pink and white.

CLIMBING AMERICAN BEAUTY—Clusters of rich rose to carmine Roses. Beautiful until snow-fall.

CRIMSON RAMBLER—A marvelous profusion of rich and glowing crimson flowers in June and July.

DR. VAN FLEET—Its beautiful clustered buds open into large, shapely flowers of shell-pink.

EXCELSA—Large clusters of intense crimson, shading lighter at edges of petals.

Hardy Climbing and Trailing Roses

The Climbers, or Ramblers, not only afford a burst of bloom upon trellises, over fences and hedges, against a porch or entrance, but having attractive foliage, they are an object of beauty throughout the entire season. No home is properly planted without a liberal display of Climbing Roses.

Price, 2 year old, No. 1, 65c each;
3 for \$1.75.

MARY WALLACE (New)—Semi-double, clear rose-pink, salmon base. Blooms late in spring and intermittently during the season.

MRS. ROBERT PEARY — The great white ever-blooming Climbing Tea Rose. Magnificent throughout the season and absolutely hardy.

PAUL'S SCARLET CLIMBER—Vivid scarlet flowers which hold their color for a long season.

SILVER MOON—Pure white, with thick clusters of yellow stamens.

TAUSENDSCHON—Superb, double clusters of varying colors of pink, white and rose, from June until August.

Special Offer on Baby Ramblers, No. 70

The Best Seven Evergreens for Foundation Planting

4 UPRIGHTS — 3 DWARFS

Collection No. 80

7 Evergreens, 1 of each, for

\$25.00

14 Evergreens, 2 of each, for

\$46.50

NORWAY SPRUCE

MUGHO PINE

UPRIGHTS 2 TO 3 FEET

DWARFS 1½ TO 2 FEET

This collection gives a wonderful assortment of various shades of Evergreens, and produces an exquisite combination.

Plant dwarf varieties at entrance and under windows, and the taller growing kinds at corners or wherever height is needed.

**THESE ARE ABSOLUTELY
DEPENDABLE EVERGREENS**

These well selected Evergreens, varying from the low-spreading Mugho Pine to the spreading Junipers and the tall, stately Pines and Cedars, are the ideal and proper Evergreens for foundation plantings.

—••—

ARBOR VITAE, GLOBOSA

What a Transformation Has Been Accomplished Here. Imagine the Home Without the Planting, Certainly Worth Many Times Its Cost in Appearance, Comfort and Contentment. Frank E. Taft, D. D. S., of Conklin, N. Y., Proudly Sends This Photograph, Emphasizes the Dependable Nursery Stock the Finger Lakes Nurseries Furnishes and Says, "Every Shrub and Tree Planted Lives. Dealing With You O. K. Your Stock 'Do' Grow."

The Friendly Evergreens

Wonderfully Effective for Color in Winter, for Charming Contrasts in Summer.

AMERICAN ARBOR VITAE (White Cedar)—With its deep green, feathery foliage and upright, conical shape, it makes an attractive Evergreen for foundation or specimen planting. Excellent for windbreak, as it makes a very dense hedge. Can be sheared to any height. 2 to 3 ft., \$3.50 each; 2 for \$6.25.

ARBOR VITAE, GLOBOSA—Forms a natural globe without any trimming. An excellent dwarf variety. 1½ to 2 ft., \$3.00 each; 2 for \$5.25.

ARBOR VITAE, PYRAMIDAL—A most beautiful feathery, upright Evergreen of a most pronounced pyramidal shape. 1½ to 2 ft., \$3.00 each; 2 for \$5.25. 2 to 3 ft., \$5.50 each; 2 for \$10.25.

JUNIPER, IRISH—A somewhat fine-leaved, bluish Juniper, medium to tall. The top is pointed and the base broader. 1½ to 2 ft., \$3.00 each; 2 for \$5.25. 2 to 3 ft., \$4.00 each; 2 for \$7.25.

JUNIPER, SAVIN—A low, many branched Evergreen, with spreading branches much ramified and abundantly clothed with foliage. 1½ to 2 ft., \$4.00 each; 2 for \$7.35.

JUNIPER, PFITZER'S—This low spreading Evergreen of greenish blue is equally satisfactory in the extreme North as well as South, and will survive in shady or sunny exposure. 1½ to 2 ft., \$4.50 each; 2 for \$8.25.

HEMLOCK—Regular, conical form, tapering from a broad base. Stands shearing well. Has rich, dark green foliage. Will not succeed in a hot, dry location. 2 to 3 ft., \$4.50 each; 2 for \$8.25.

FIR, DOUGLAS—Of compact and symmetrical growth, with rather short needles. Will obtain a height of fifty to sixty feet. Hardy in any location. 2 to 3 ft., \$4.00 each; 2 for \$7.25.

PINE, AUSTRIAN—Broad-based, heavily needled, with rich, dark green foliage. 2 to 3 ft., \$3.50 each; 2 for \$6.25.

COLORADO BLUE SPRUCE
An Excellent Evergreen for Specimen Planting

EVERGREENS—Continued

PINE, MUGHO—A low, compact grower, stiff leaves of an excellent green color. The new growth closely resembles tiny candlesticks over the entire tree. 15 to 18 in., \$3.50 each; 2 for \$6.35; 18 to 25 in., \$4.50 each; 2 for \$8.25.

PINE, SCOTCH—A pale green, with branches that shoot out obliquely. 2 to 3 ft., \$3.50 each; 2 for \$6.25.

SPRUCE, COLORADO BLUE—A magnificent, upright Evergreen, with glistening, steel-blue foliage and horizontal branches. 1½ to 2 ft., \$6.50

each; 2 for \$12.35. 2 to 3 ft., \$12.50 each; 2 for \$24.50.

SPRUCE, NORWAY—A tall, graceful, pyramidal shaped tree, with broad, drooping branches of deep green foliage. Fine for foundation planting and is excellent for windbreaks. 2 to 3 ft., \$2.50 each; 2 for \$4.35. 3 to 4 ft., \$3.50 each; 2 for \$6.35.

YEW, ENGLISH—Very dense, compact grower, with short, dark green leaves. 1½ to 2 ft., \$4.50 each; 2 for \$8.35.

Little Evergreens to Beautify Your Porch or Entrance

NORWAY SPRUCE

FOR URNS, POTS OR TUBS

15 to 18 inch, at \$2.75 per Pair

1½ to 2 feet, at \$5.50 per Pair.

Give your entrance that home-like and dignified appearance by planting a pair of these inexpensive Evergreens in Urns, Pots or Tubs. They will be decorative and attractive, both winter and summer.

NORWAY SPRUCE

FOR WINDOW AND PORCH BOXES

Each, 50c; 3 for \$1.35.

Your window and porch boxes, which have been so colorful all summer, can continue to be cheery and beautiful all through the winter months at a surprisingly little expense. Plant these fresh green Norway Spruce, 12 to 15 in., in your flower boxes, about one ft. apart and they will present a handsome, striking appearance. The cost is actually lower than summer flowers and if you wish, you can transplant them to your lawn in the spring and they will soon develop into real Specimen Evergreens.

Hardy Broad-Leaved Flowering Evergreens

They Furnish Flowers in Spring and Evergreen During the Entire Year

AZALEA ARBORESCENS—Very fragrant white flowers, with pink stamens, appear in profusion in June, lasting for weeks. The foliage is deep green, and often colors striking shades of red in late autumn. 1½ to 2 ft., \$3.85 each.

AZALEA FLAME (Calendulacea)—This is certainly the most gay and brilliant-flowering shrub yet known. No more striking landscape effect can be produced than a collection of Flame Azalea in full bloom. The flowers range in color from light sulphur-yellow to deep red. 18 to 24 in. specimens, \$5.00 each.

AZALIA NUDIFLORA

This handsome, broad-leaved Evergreen is covered in April and May with gorgeous, showy, pink flow-

ers and its deep green, very distinctive foliage makes it an object of beauty the year around. No more striking landscape effect can be produced than a collection of this Azalea when in full bloom. Many a corner in the home grounds that has lost its interest can be brightened up into an attractive cozy corner with this truly beautiful Azalea. **Strong, well rooted, 1½ to 2 ft. specimens, \$3.50 each; 3 for \$9.50.**

KALMIA LATIFOLIA (Mountain Laurel)—Kalmia is a favorite medium sized evergreen shrub for drive, path and foundation planting. Perfectly hardy on both wet and dry soils; it endures much shade. Large corymbs of beautiful rose-tinted flowers in June. 1½ to 2 ft., \$3.75 each.

RHODODENDRONS—See page 13.

Extra Large Shrubs for Quick Results

CARAGANA ARBORESCENS—

5 to 6 ft., \$2.00 each; 3 for \$5.00.

HONEYSUCKLE TARTARIAN—

3 to 4 ft., \$1.00 each; 3 for \$2.75.

SPIREA VAN HOUTTE—

4 to 5 ft., \$1.00 each; 3 for \$2.75.

HYDRANGEA ARBORESCENS—

3 to 4 ft., \$1.25 each; 3 for \$3.00.

HYDRANGEA P. G., in Tree Form—

4 to 5 ft., \$2.50 each.

WE HAVE ONLY A LIMITED QUANTITY OF THESE EXTRA LARGE SHRUBS.
ORDER EARLY.

Ornamental Vines

Add Beauty and Charm to the Porch, Fence, Arbor and Pergola.

When used close to building, rich garden soil should be used to a depth of one foot. Plant about 6 feet apart.

ADD 10c EXTRA FOR PARCEL POST

AMERICAN IVY (Virginia Creeper)—A very fast and vigorous grower. A fine, rich green in summer, changing to vivid hues of crimson in fall. 50c each; 3 for \$1.35.

BIGNONIA (Trumpet Vine)—Has showy, orange-scarlet flowers and evergreen leaves. 60c each; 3 for \$1.70.

BOSTON IVY (Amp. Veitchi)—Beautiful, three-lobed leaves, overlapping, and forms a tapestry of rare charm. The only vine that will cling to brick or cement wall. A fast grower. 75c each; 3 for \$2.00.

CLEMATIS JACKMANI—Large, velvety purple flowers. \$1.00 each; 3 for \$2.50.

CLEMATIS MME. E. ANDRE—Medium flowers of a striking dark red color. \$1.00 each; 3 for \$2.50.

CLEMATIS PANICULATA—In August this becomes a mass of dainty white, star-like flowers, with an alluring and penetrating fragrance. 65c each; 3 for \$1.75.

DUTCHMAN'S PIPE (Birthwort)—Has large, heart-shaped leaves, with peculiar brownish flowers that resemble a miniature pipe. \$1.00 each; 2 for \$2.50.

EVERGREEN BITTERSWEET (Euonymus Radicans)—Handsome, glossy foliage. Its clusters of orange-yellow capsules cling to the vine throughout the winter months, and makes a charming house decoration. 75c each; 3 for \$2.00.

HONEYSUCKLE (Hall's Japan)—From June till September this vine is covered with handsome blossoms which open and turn to a striking yellow.

The Climbing Vines Are Indispensable

FOR COVERING WALLS, FENCES, PERGOLAS
AND TRELLISES

This Boston Ivy Vine is the Only Vine That Will Cling to Brick Without Artificial Support.

WISTARIA (Chinese Purple)
The Glorious Long Panicles of Delicate Blue
Blossoms Are Always a Pleasing Sight

low. Deliciously fragrant. Will succeed in sandy soil, partial shade or in any location. 50c each; 3 for \$1.35.

WISTARIA, CHINESE PURPLE—With lavender-purplish flowers in dense, pendulous clusters it is unsurpassed for beauty and picturesqueness. Blooms in May and June and later in lesser profusion. 75c each; 3 for \$2.00.

LANDSCAPE SERVICE

We maintain a professionally trained landscape organization who will gladly assist you with any modest planting scheme, or assume complete responsibility for transforming a raw, ungraded homesite, a barren stump lot, a rocky knoll, or a tract of large acreage, into an estate of interesting landscape pictures and delightful charm.

Every home, whether of simple or elaborate architectural conception, requires a planned landscape setting to complete the picture. Yet how often do we see the beauty of a well designed structure sadly depreciated by lack of adequate shrubbery or by a planting attempt that lacks unity and harmony with the style of architecture it is supposed to enhance.

Why not consult our expert landscape service in the handling of your problem?

If you desire a pencil plan, send us a sketch of the grounds, together with the measurements. We will make a pencil plan for you, together with a planting list.

The cost for making this pencil plan is \$3.50. Send us your check for this amount. On receipt of your order for the material for the planting, we will credit your account with the \$3.50 you have sent us. In this way the plans will not cost you anything.

This charge is for the ordinary plantings. Where an estate or park plan is necessary, we will be pleased to have you write for special prices.

The Graceful, Drooping Sprays of Spirea Van Houttei Always Make An Attractive Planting.

See Page 14 for Prices.

Ornamental Flowering Shrubs

BEAUTIFY your home grounds and give that home-like, permanent appearance in place of a stark, bare house. Without shrubs the foundation planting would lose all its bloom and fragrance. Plant the tall-growing varieties in the background and at corners where height is needed, the lower-growing shrubs between the taller ones, where the view should not be obstructed. In each case we have given ultimate height. Plant about 2 feet apart, and if used for foundation planting, about 1½ feet away from building.

If Parcel Post, Add 5c per Bush to Cover Postage and Insurance.

ALMOND—Covered in May with double pink blossoms like small roses, before the leaves appear. Grows 6 to 8 ft. 2 to 3 ft. plants, 85c each; 3 for \$2.25.

ALTHEA—Very symmetrical, with brightly colored, rosette-like flowers and beautiful variegated foliage. Blooms from August on, and is the "color spot" of the fall. Pink, red, purple and white. Grows 8 to 10 feet. (See page 17.) 2 to 3 ft., 50c each; 3 for \$1.35.

TREE FORM ALTHEAS—Flowers are the same as bush form. Grown on a single stem instead of being branched from ground as bush form. 3 to 4 ft., \$1.00 each.

BUDDLEIA (Everblooming Butterfly Bush)—It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers, borne by the hundreds on a flower head frequently ten inches long. Exceedingly fragrant and attracts butterflies. A rapid grower, ultimate height, 4 to 5 ft. Blooms all summer. (See page 16.) 2 to 3 ft., 50c each; 3 for \$1.35.

CORNUS ELEGANTISSIMA (Variegated Leaf Dogwood)—Valuable for its colored bark, greenish-white flowers in May and June, followed by black berries in fall. Beautifully variegated foliage. Grows 5 to 8 feet. 2 to 3 ft., 85c each; 3 for \$2.35.

DEUTZIA, PRIDE OF ROCHESTER—Has showy clusters of white flowers, tinged with pink in May and June. Grows 5 to 7 ft. 2 to 3 ft., 50c each; 3 for \$1.35.

DOGWOOD (Cornus Alba)—Its blood-red bark in winter is very conspicuous with its light blue berries. In early summer it is a mass of exquisite white flowers, contrasting beautifully with red twigs. 6 to 8 ft. 2 to 3 ft., 65c each; 3 for \$1.75.

DEUTZIA GRACILIS (Dwarf)—White flowers, May and June. Slender, arched branches. 3 to 4 ft. 12 to 18 in., 65c each; 3 for \$1.75.

DEUTZIA CRENATA—Tall-growing, with fragrant, rose-colored flowers blooming in June. 2 to 3 ft., 50c each; 3 for \$1.35.

FORSYTHIA (Golden Bell)—Their bright, golden masses of glinting yellow appears before the leaves and are welcome harbingers of spring. 5 to 7 ft. 2 to 3 ft., 50c each; 3 for \$1.35.

GOLDEN ELDER—This golden-leaved shrub is a pleasing contrast among shrubs of green foliage. Flat-topped cymes of white flowers in early summer; 6 to 8 ft. 2 to 3 ft., 50c each; 3 for \$1.35.

HONEYSUCKLE TARTARIAN—A rapid grower. Makes a wonderful showing the first season. Fragrant, pink flowers in May and June, followed by a wealth of orange-red berries. 6 to 8 ft. 1½ to 2 ft., 50c each; 3 for \$1.35.

Rhododendrons

THE handsomest broad-leaf Evergreens that grow. Coming into bloom in the early summer, the rich green foliage and magnificent flowers surpass anything in grandeur and distinctiveness. The "Aristocrat" of the home grounds. Every garden enthusiast should grow them.

RHODODENDRON CATAWBA (Catawbiense)

—Very hardy, very handsome, medium-sized, late flowering; rich, dark green, shiny leaves; constant in winter. Invaluable for border, foundations, garden and shady places. 1½ to 2 ft., \$4.75; 3 for \$12.00.

RHODODENDRON CAROLINA (Carolinianum)

—Ranges from red to clear pink in color, and pretty dark green leaves. Perfectly hardy and fine for massing on hillsides and rockeries. Perfect for foundation plantings, paths, gardens and shady places. 1 to 1½ ft., \$5.00 each; 3 for \$12.50.

RHODODENDRON CATAWBA

PREFERRED FRENCH LILACS

The Best French Lilacs

Price, \$1.00 each; 3 for \$2.65.

THESE are the very much improved variety. They bloom usually soon after planting and their large trusses are marvels of beauty and elegance—far superior to the older varieties. They must be seen to be appreciated.

CONGO—Beautiful Wine Red—Long panicles of beautiful wine-red flowers. Distinct and superb.

VESTAL—Enormous trusses of large, perfectly shaped, pure white, reflexed lobes.

PRESIDENT GREVY—A beautiful shade of blue mauve, the open face a lovely contrasting shade of bright blue.

RED-LEAVED BARBERRY

Must be Planted in Full Exposure to Sun.

A Snappy Colored Shrub of Unusual Brilliancy.
A Limited Supply Only, 75c Each; 3 for \$2.00;
\$10.00 per Dozen.

RED DWARF SPIREA

HYDRANGEA ARBORESCENS (Hills of Snow)

—A really marvelous shrub that blooms from July to October. Resembles the Snowball but much larger. Excellent for sunny or shady locations. Grows 5 to 6 ft. 2 to 3 ft., 50c each; 3 for \$1.35.

HYDRANGEA PEE GEE (Paniculata Grandiflora)

—During the hot summer months this shrub is covered with great pyramidal panicles, white on opening and assuming rose and bronze tints on the sunny side, and drooping gracefully from their own weight. Excellent for winter decoration. Grows 5 to 7 ft. 1½ to 2 ft., 50c each; 3 for \$1.35.

JAPAN QUINCE (Cydonia Japonica)

—In May, just before apple blossom time, this shrub is startlingly brilliant, with dazzling, scarlet flowers, followed later by quince-shaped, fragrant fruit. Grows 4 to 6 ft. 1½ to 2 ft., \$1.00 each; 3 for \$2.75.

LILACS—If you want a good, showy shrub that is easy to grow, plant Lilacs. Plant singly or in masses. They make an excellent flowering hedge.

COMMON WHITE LILAC—Splendid panicles of pure white, single flowers in May and June. 2 to 3 ft., 65c each; 3 for \$1.75.

COMMON PURPLE LILAC—Similar to white, but more vigorous. 50c each; 3 for \$1.35.

FRENCH LILACS—These improved Lilacs, with their large trusses of flowers, are marvels of beauty and elegance. See page 13 for the very choicest varieties.

PHOTINIA VILLOSA (Christmas Berry)

—A charming and unique ornamental. Liberally set with small corymbs of white flowers in June. Later the foliage is a most gorgeous red; the bird-proof berries carry the same scarlet gleam through the winter. This should be in every landscape. Excellent for winter decoration. Grows about 8 feet. 2 to 3 ft., \$1.00 each; 3 for \$2.75.

SNOWBERRY

—Has dainty, pink flowers in June and July which in August form waxy, white berries about the size of cherries. They hang nearly all winter. Will succeed in dense shade and sunlight as well. Grows 3 to 5 feet. 50c each; 3 for \$1.35.

SPIREA ANTHONY WATERER

—A beautiful, dwarf shrub, with showy, crimson flowers in flat clusters from June until frost. Grows about 3 feet. 1½ to 2 ft., 65c each; 3 for \$1.50.

SPIREA AUREA (Golden)

—Green foliage, bordered with rich, golden yellow. In June covered with conspicuous white flowers. Grows 5 to 7 feet. 2 to 3 ft., 50c each; 3 for \$1.35.

SPIREA VAN HOUTTEI

—Grandest of all Spiraeas. With arching branches of white flower clusters, resembling snow covered Evergreen or a cascade of bloom. As a flowering hedge it is par excellence. Grows 6 to 8 feet. 1½ to 3 ft., 35c each; 10 for \$2.50; 100 for \$18.00. 2 to 3 ft., 45c each; 10 for \$3.85; 100 for \$20.00. 3 to 4 ft., 50c each; 10 for \$4.50; 100 for \$25.00

ORNAMENTAL FLOWERING SHRUBS—Continued

Building a Setting of Nature Around a Home, So Naturally It Appears To Have Grown Up Together, Is a Fine Art. The Result Is a Charming Home Which Gives Us That Rare Pleasure, Contentment.

SPIREA THUNBERGI—Forms a dense, fluffy bush, 3 to 5 feet; its feathery foliage is a pleasing shade of yellowish-green, changing in autumn to bright red and orange. Pure white flowers in early spring. 2 to 3 ft., 50c each; 3 for \$1.35.

SYRINGA (Mock Orange)—A choice, fragrant shrub, with a wealth of large, creamy white flowers resembling orange blossoms. Blooms in May and June and intermittently until fall. 6 to 8 feet. 2 to 3 ft., 50c each; 3 for \$1.35.

KERRIA JAPONICA—Slender, green branches and pretty, closely serrated leaves. The double flowers are deep orange-yellow and are produced in profusion throughout the summer. 2 to 3 ft., 75c each; 3 for \$2.00.

SNOWBALL (Viburnum)—The large, rounded balls of snow white flowers in May and June on drooping branches make this a most attractive shrub. Grows 6 to 8 feet. 2 to 3 ft., 75c each; 3 for \$2.00.

WEIGELA ROSEA — Remarkably showy, trumpet-shaped flowers of brilliant pink in June and July. Grows 4 to 6 feet. 2 to 3 ft., 50c each; 3 for \$1.35.

WEIGELA EVA RATHKE — Attractive, deep carmine flowers. A continual bloomer. Grows 2 to 4 feet. 1½ to 2 ft., 75c each; 3 for \$2.00.

WEIGELA, VARIEGATED LEAF—In contrast with rose-colored flowers, the finely variegated foliage is gorgeous. Grows 2 to 4 feet. 1 to 1½ ft., 65c each; 3 for \$1.75.

COMMON SNOWBALL.

The Large, Round Blossoms are Very Showy.

KOREAN BRIDAL WREATH

This worthwhile new shrub, discovered in Korea, forms a big, dome-shaped bush, covered with large, rounded clusters of snowy flowers, marked with darker eyes. Blooms two weeks later than the familiar Spirea Van Houtte. It retains its beautiful glossy foliage late into the autumn. 2 year stock plants, \$3.00 each.

THE MAGNIFICENT BEAUTY BUSH (*Kolkwitzia Amabilis*)
ONE OF THE HANDSOMEST SHRUBS INTRODUCED IN YEARS

This exceedingly handsome Flowering Shrub has come to us from China and Central Asia. Its arching branches are covered in spring with clusters of tubular flowers, borne in such profusion that the bush is one cloud of delicate pink. The foliage and habit are attractive when bush is out of flower, and is perfectly hardy as far north as Montreal. Ultimate height, 6-9 feet. \$3.00 each.

Hardy Old-Fashioned Perennials

Strong, Field Grown Plants That Bloom the Same Season Planted

Price—25c each; 3 for 65c, (except as noted). By Parcel Post, 2c Per Plant Extra.

(A) under 1 ft., (B) 1 to 2 ft., (C) 2 to 3 ft., (D) 3 to 4 ft., (E) over 4 ft.

ANEMONE WHITE—Tall, pure white blooms, with deep yellow stamens. September to October. (D)

ANEMONE PINK—Same as white only soft pink blooms. (D)

ANCHUSA—Small panicles of blue flowers. June to September. (D)

ACHILLEA PEARL—Small, double white flowers in July. (B)

BLEEDING HEART (*Dicentra*) — Rose-colored, heart-shaped. May, June and July. 75c each; 3 for \$2.00. (B)

CANDYTUFT—Foliage almost hidden with a mass of white flowers. An excellent dwarf border. (A)

CANTERBURY BELL—Bell-shaped flowers in shades of pink, purple and white. June and July. (C)

COREOPSIS—Yellow all summer; rich foliage. (B)

COLUMBINE—A delicate combination of scarlet yellow, purple and pink. Excellent for a shaded location. May and June. (B)

CARNATIONS—Will give an abundance of bloom from June until late fall. Colors, pink, white and red. (B)

CHRYSANTHEMUMS—These hardy flowers will give a riot of color through September, October and November. Colors, bronze, red, pink, white and yellow. (B)

DELPHINIUMS (*Larkspur*)—Long spikes of blue flowers in June and July. (C)

ELEGANS LILY (*Orange Lily*)—Various shades of orange red, dotted more or less with dark brown spots. 30c each; 3 for 75c. (C)

FOXGLOVES (*Digitalis*) — Handsome, long racemes of thimble-shaped flowers in purple, pink and white. June and July. (C)

GAILLARDIA (*Blanket Flower*) — Attractive, daisy-shaped, yellow flowers, with reddish brown centers. Blooms all summer. (B)

GOLDEN GLOW—Large, golden-yellow colored blooms. July to September. Very showy. (E)

GYPSOPHILA (*Baby's Breath*) — Graceful, tiny white flowers in fairy-like clusters. June. (B)

HOLLYHOCKS—Their colossal spikes of white, pink, red, maroon and yellow produce bold and dazzling effects. (E)

IRIS (*German*)—A wealth of showy flowers, resembling orchids, in a combination of beautiful colors on long stems. Easy culture. June to July. Blue, purple, yellow, white and striped. (B)

JAPANESE IRIS—These magnificent, large-flowering Iris in their delicate colorings are hard to describe. Assorted colors. July-August. (C)

LILIES

MADONNA LILY (*Candidum*)—Glistening, pure white and very fragrant. Blooms profusely in June and July. Can be forced inside for Easter blooming. 50c each; 3 for \$1.35. (C)

REGAL LILY—White flowers, suffused with pink and a beautiful glow of canary yellow at center. Exquisitely perfumed. June through to August. 75c each; 3 for \$2.00. (C)

TIGRUM LILY—Very showy, orange-colored flower from July to August. (E)

MALLOWS (*Hibiscus*)—Large, showy flowers of crimson, white and pink from July to September. (E)

MONARDA—Brilliant, bright red flowers from June to September. (C)

PINKS (*Dianthus*)—Fragrant flowers, with fringed petals. May and June. (A)

Perennial Flowering Plants

BLAZING STAR (Liatris)—Combines beauty and unusual appearance. Blooms in August and September, throwing up long, narrow spikes of a rich lavender flower, which lasts very well. 35c each; 3 for 85c.

ORIENTAL POPPY—The flowers are very large and of a brilliant orange-scarlet, with large black blotches at the base of the petals and a great mass of bluish-black stamens in the heart of the cup-shaped flowers, dazzling as a flame.

PYRETHRUM (Painted Daisy)—The aristocrat of the Daisy family; elegantly borne on long stems, in a variety of pleasing color combinations.

SWEET WILLIAM (Dianthus)—Flowers in large clusters of various patterns and colors. June-July. (B)

SHASTA DAISY—Pure white, large flowers, with yellow centers, borne on long, wiry stems. Blooms all summer. (B)

VERONICA—Spikes of deep blue flowers in August and September. (B)

YUCCA—An evergreen plant, with cream-colored flowers borne on long stalks. 35c each; 3 for 85c.

QUEEN ALEXANDRIA SPIREA

This unusual plant is a vigorous grower and produces gorgeous, feathery plumes of delicate pink flowers in June and July. They prefer a half-shaded location. Excellent for forcing.

45c each; 3 for \$1.00.

SUMMER HYACINTH

This new bulb or plant is similar to the spring blooming Hyacinth, except that it blooms continuously all summer. Loaded with pendant, bell-shaped, creamy white flowers, on strong stalks. A rare plant.

15c each; 10 for \$1.00.

Gladiolus

No garden is complete without these showy summer-flowering bulbs which can be grown with very little care. Will thrive in any rich, light garden soil, exposed to the sun. If your garden is heavy, work in some well rotted manure. Planting can be done just as soon as the frost is out of the ground in the spring. Set bulbs 2 to 4 inches deep and 6 to 9 inches apart.

We List the Most Select Varieties

AMERICA—Large, clear lavender pink. The best pink. 8c each; 85c per doz.

ALICE TIPLADY (K)—A grand, large Primulinus of beautiful orange saffron color. 10c each; \$1.00 per doz.

Shade Trees

FOR LAWN OR STREET PLANTING

HAVE you ever noticed that the homes which look the most attractive to you invariably are those with a few well-placed Ornamental Trees around them? It is well recognized that shade trees not only add to its beauty and comfort, but greatly increase the value of the property. We do not advise planting big, overgrown Ornamental Trees. They do not transplant as successfully as the sizes offered herein.

HOW FAR APART TO PLANT

Trees planted on the sunny side of the house should be planted close enough to each other to give the needed shade without waiting too many years. For this reason the following trees may be planted on a lawn 15 to 20 feet apart. Smaller growing Ornamental Lawn trees about 10 feet apart. Trees for street planting about 30 feet apart.

AMERICAN ELM—One of the noblest and most picturesque of American trees. Easily distinguished by its wide, arching top, vase-like form and pendulous branches. Used extensively for street planting, forming perfect Gothic arches over the streets. A rapid and vigorous grower.

6 to 8 ft. \$1.00 each; 3 for \$2.50
8 to 10 ft. 1.50 each; 3 for 3.85
10 to 12 ft. 2.50 each; 3 for 6.75

AMERICAN LINDEN OR BASSWOOD — A stately, rapid growing tree, with large, showy leaves and fragrant flowers. Very desirable on account of its fine, luxuriant foliage. Valuable for its beautiful, white wood.

5 to 6 ft. \$2.00 each; 3 for \$5.00

HORSE CHESTNUT (White Flowering)—A well known variety. Its magnificent spikes of white flowers make it very attractive. Fine for street planting.

5 to 6 ft. \$1.80 each; 3 for \$5.00

NORWAY MAPLE

WIER'S CUT-LEAF MAPLE

MAPLE, ASH-LEAF—A fine, rapid growing variety, with handsome, light green foliage and spreading head; very hardy, desirable for street planting and succeeds in many places where other varieties do not thrive.

6 to 8 ft. \$1.00 each; 3 for \$2.50
8 to 10 ft. 1.50 each; 3 for 3.85
10 to 12 ft. 2.00 each; 3 for 5.00

MAPLE, SILVER-LEAF—If a quick growing tree for immediate shade is desired, we recommend the Silver-Leaf Maple. Forms a large, spreading head; foliage bright green above, and silvery beneath. Excellent for street planting.

6 to 8 ft. \$1.00 each; 3 for \$2.50
8 to 10 ft. 1.50 each; 3 for 3.85
10 to 12 ft. 2.00 each; 3 for 5.00

MAPLE, NORWAY—Most beautiful shade tree. Perfect in form; free from disease. Sturdy, compact and vigorous grower, forming a rounded head of stout branches and clean, broad, deep green foliage. Perfectly hardy. Excellent for street planting or for shade on lawn.

6 to 8 ft. \$3.00 each; 3 for \$ 8.00
8 to 10 ft. 4.00 each; 3 for 10.50

ORIENTAL PLANE — A rapid, upright, clean grower and long lived; beautiful, dense foliage. The bark peels off the trunk and branches in autumn, leaving the whole tree of a creamy white color all through the winter. Its large, round head of heart-shaped foliage is majestic in aspect and attractive the year around.

6 to 8 ft. \$2.00 each; 3 for \$5.00

SHADE TREES—Continued

POPLAR, LOMBARDY—Well known for its erect, rapid growth and spire-like form; used for screens and formal plantings.

6 to 8 ft. \$0.85 each; 3 for \$2.00
8 to 10 ft. 1.00 each; 3 for 2.50

POPLAR, CAROLINA—A remarkably rapid, luxuriant grower. Very large leaves, very glossy, deep green. Will grow in any kind of soil. For a quick-growing shade tree there is none that equals the Carolina Poplar. Also useful for planting as a screen to hide unsightly buildings or as a windbreak for orchard or garden plot.

8 to 10 ft. 75c each; 3 for \$2.00
10 to 12 ft. 85c each; 3 for 2.00

PRUNUS TRILOBA (Double-flowered Plum)—A charming shrub of vigorous growth. Very early in spring, before its leaves appear, the whole tree is decked in a fleecy cloud of very double, light pink blossoms. Its effect on a still, leafless landscape is very bright. Blooms in May.

3 to 4 ft. \$1.00 each; 3 for \$2.50

WILLOW, WISCONSIN WEeping—A common, well known weeping variety. Forms a large, round-headed, graceful tree. Requires plenty of room and is highly desirable where space is available.

\$2.00 each; 3 for \$5.00

WISCONSIN WEeping WILLOW

JAPANESE FLOWERING CHERRY

Possess One of These Uncommon Trees of Oriental Origin. Its Graceful, Weeping Branches, Laden With Delicately Tinted Shell-Pink Blossoms, Lend a Touch of Rare Distinction to its Surroundings. Specially Priced, \$6.25 Each.

Ornamental Lawn Trees

PRUNUS PISSARDI (Red-foliaged)

Foliage is a beautiful reddish-purple, and in May tree is covered with a gorgeous mass of pink blossoms. No other red-leaved tree or shrub retains its color like this variety. For best results, plant a clump of three trees. Contrast is gorgeous on a green lawn or planted among other flowering shrubs. Ultimate height 15 to 20 feet.

3 to 4 ft. specimens, \$1.00 each; 3 for \$2.50
4 to 6 ft. specimens, 1.25 each; 3 for 3.15

CUT-LEAVED WEeping BIRCH

This noble tree is not only the most popular of the weeping trees, but it is indeed a picture of delicacy and grace. Its tall, slender, yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree. Weeping trees are necessary on a lawn for contrast. Ultimate height 30 to 40 feet.

4 to 5 ft. trees, \$3.50 each; 2 for \$5.50

TEA'S WEeping MULBERRY

Slender, vine-like branches that droop to the ground. Glossy, dark green foliage—a favorite for specimen use on small lawns.

2 year old heads, \$2.85 each; 2 for \$5.00

PAUL'S DOUBLE SCARLET THORN

Flowers bright carmine red. Superior to any of its kind. Very fine for small grounds. Fruit very ornamental. Will thrive in any soil.

3 to 4 ft., \$2.25 each

Ornamental Trees of Unusual Beauty

SCHWEDLERI MAPLE

A rare shade tree, with beautiful foliage which attracts attention at all seasons. Their gleaming red and purple contrasts brightly with the delicate green of other trees. In mid-summer they are purplish green and in autumn golden yellow. 6 to 8 ft., \$4.50 each; 2 for \$8.50.

BECHTEL'S CRAB

This beautiful tree, with spreading branches and dark green foliage, has double pink flowers. One of the finest for lawn decoration. Ultimate height about 20 feet. 3 to 4 ft. specimens, \$1.50 each; 2 for \$2.85; 10 for \$12.50.

CATALPA BUNGEII (Umbrella Trees)

This is the dwarf, round-headed tree. Their symmetrical head forms a perfect umbrella-shaped top without pruning. Attractive in pairs along a driveway, or planted singly.

Plant a Pair of These Symmetrical Umbrella Trees Before Your Entrance. Like Uniformed Sentries, They Give a Formal Appearance to Your Walk and Entrance.

Specially priced, 5-6 ft., \$2.00 each; 2 for \$3.00. 6-8 ft., \$3.00 each; 2 for \$5.00.

Japanese Barberry Furnishes Light Green Foliage in Summer, Turning to Coppery Red in Fall and Red Berries in Winter. Charming Effects With These Practical Ornamental Hedges.

Ornamental Hedges

BEAUTIFY AND SERVE

Hedges form a magnificent background for Shrubs, Roses and Perennial Beds, screen the vegetable garden and are ideal for outlining lawns and formal gardens. They form a privacy that cannot be overlooked. Superior to fences, for unlike fences, they get better every year.

JAPAN BARBERRY (Thunbergi)—A dwarf grower of thick, compact habit, graceful drooping branches, stands pruning well. Its brilliant red fruit clings through most of the winter. Leaves light green, changing to a beautiful coppery red in the fall. Also valuable for foundation planting, facing taller shrubbery or for planting singly on the lawn. Perfectly hardy.

	Per 10	Per 25	Per 100

CALIFORNIA PRIVET—*Ligustrum Ovalifolium*—Almost Evergreen

Block of Over 300,000 Fruit Trees Grown at Proper Distance to Make Quality Trees. Quantity Production Enables Us to Price Our Goods Reasonably, but We do not Sacrifice Quality for Price.

Apple Trees

Plant strong, heavily rooted fruit trees grown in the famous Finger Lakes region. Hardy specimens that take hold at once, mature earlier and yield heavier crops of better quality fruit than ordinary trees, so often set out by the inexperienced planter.

PRICES OF ALL VARIETIES OF APPLE TREES

Grade	Age	Height	Each	Per 10
XXX	2 and 3 yr.	5 to 7 ft.	\$0.75	\$6.50
XX	2 and 3 yr.	4 to 6 ft.	.70	6.00
X	2 and 3 yr.	3½ to 5 ft.	.65	5.50

Summer Varieties

RED ASTRACHAN—The very best early, red summer apple. Excellent for cooking and eating out of hand. Fruit tender, juicy, crisp and sub-acid flavor. Very hardy and bears the fourth year. Ripens in July.

SWEET BOUGH—Large, pale yellow; sweet, tender and juicy. Tree a compact grower and abundant bearer. August.

YELLOW TRANSPARENT—Tree upright, and a very early and abundant bearer. Fruit of good size; skin clear white, turning to a pale yellow; flavor acid and very good. Ripens from ten days to two weeks earlier than Early Harvest. Ripens in August.

Autumn Varieties

DUCHESS OF OLDENBURG—Vigorous growth; large; striped; tender, juicy, sub-acid; good; regular and abundant bearer. One of the hardiest kinds known. Ripens in September.

GRAVENSTEIN—This is a large, handsome apple streaked and splashed with red over a strong yellow. In quality it ranks very good to best. September to November.

Winter Varieties

BALDWIN—The leading variety in the commercial orchards in New York, New England, Southern Canada, Ohio and Southern Michigan, the so-called "Baldwin Belt." The fruit is large, deep red, crisp and juicy, thick skin stands handling

well, of fine flavor, slightly sub-acid. Delightfully aromatic. Is an excellent shipper and one of the leading apples used for export trade. Quality excellent. Ripens in November.

BEN DAVIS—Fruit is medium to large, of a bright, deep red color, or red striped over clear yellow. Has a thin, tough skin. It is one of the best keeping apples on the market today, lasting in cold storage until June or July.

CORTLAND—(New variety developed by the New York State Experimental Station). A fine apple resulting from the cross pollinization of McIntosh and Ben Davis. Inheriting only the good qualities of each, the new apple has found additional good qualities of its own. The Cortland is a beautiful red apple, larger than the McIntosh, and matures a month later. A good keeper.

DELICIOUS—A truly delicious apple with a rich, distinctive flavor. Successfully grown in any apple section; conically shaped, large, beautifully striped with red and yellow. A good keeper and shipper and a good money maker. A handsome apple that brings fancy prices on fruit stands. November.

FAMEUSE (Snow)—Well known dessert apple, beautiful in appearance and of medium size. Flesh is very white, tender and juicy. Fruit hangs well to the tree. Skin bright red. Tree is very hardy; succeeds well in cold sections. Ripens in November.

✦ ————— ✦
PLANT FINGER LAKES' EARLY-TO-BEAR APPLE TREES for quick shade and an abundance of fruit in the shortest possible time. See page 32.

WINTER APPLES—Continued

GRIMES' GOLDEN—Of just medium size, but very delicious; matures in early winter.

JONATHAN—Late winter. Round, of medium size, fine grained and of acid flavor.

KING—The fruits are a beautiful red on a yellow background, uniformly large and symmetrical. It is crisp, tender, juicy, aromatic and richly flavored. King requires fertile, well-drained soil and sheltered situations to do its best. Early winter.

McINTOSH RED—This fruit has a splendid early winter market, brings higher prices in all the Eastern markets. Fruit bright red in color with tender, white flesh. Very juicy and agreeably aromatic, sub-acid, becoming mild and nearly sweet when very ripe. The tree is vigorous grower and a good, reliable bearer. November.

N. W. GREENING—Hardier than the Rhode Island Greening and valuable in districts where the climate is too severe for that variety. Fruit is medium to large, smooth skin somewhat waxy, clear pale yellow or greenish, oftentimes faintly blue blushed. November.

Crab Apple Trees (Same Price as Standard Apples), Transcendent, (early); Hyslop, (late.)

NORTHERN SPY—Large, striped red, quality excellent; free grower and productive. December to June.

R. I. GREENING—Large, green; tender, rich sub-acid; productive; very popular. December to April.

ROME BEAUTY—Large, yellow shaded and striped with red; juicy, tender, sub-acid; productive. October to December.

STARK—Is regarded as a good variety for the commercial orchard because the tree is thrifty, hardy and very productive. Fruit is large to medium, pale green, becoming yellow and mottled with red. January.

STAYMAN'S WINESAP—One of the finest Apples for fancy trade and always in demand. Of delicious, spicy flavor and juiciness. November.

WEALTHY—Unique in its production of white fleshed, juicy beauties. The fruit is exceptionally handsome and smooth. A splendid winter variety.

WINTER BANANA—A comparatively new Apple, very flashy in appearance and large in size, deep yellow striped with red; tender and delicious, with a distinctive banana perfume and flavor. Tree comes into bearing very young. November.

FRUIT GROWERS!

IT WILL PAY YOU TO READ THIS

If you are going to plant 100 or more fruit trees you want the very best stock you can get and buy at the right price. **FOR A LIMITED TIME ONLY** we are making these special prices on Inter-Lake-Grown Fruit Trees.

Situated as we are in the very heart of the five Finger Lakes, our proximity to Lake Ontario, our climate of great variation, and our most exacting methods of budding, propagating and grading, produces a quality of trees and plants that will transplant and grow anywhere, with ordinary care. Good root system and healthy, sturdy trees and true-ness of variety, have made an enviable reputation for Finger Lakes' trees.

We are within walking distance of the New York State Agricultural Station and are in constant touch with development of new varieties and expert horticultural methods and information.

Call on us any time you are in this locality and we will gladly show you our extensive frost-proof plant, which enables us to pack and ship throughout the entire year, and deliver to your territory at the proper and best time for planting. Visitors are always welcome at our Nurseries. Our ample acreage enables us to plant each crop in the soil best adapted.

THE BEST COLLECTION FOR THE FAMILY GARDEN AND THE ROADSIDE STAND.

NORTHERN SPY

An Excellent Eating Apple, with an Alluring Flavor.
A Good Keeper.

N. W. GREENING
Always in Demand.

High Bush Blueberries

Sturdy Specimens, Nursery-Grown Plants, Hardy Everywhere. As Easily Grown as Other Garden Berries

The Blueberry is the first of fruits and the very finest of all berries for pies, preserves or eaten fresh with cream, and is almost unknown to the average gardener. This is due to the scarcity of nursery-grown plants, the only kind that transplant easily and successfully. Blueberries bear the first or second season. It is almost impossible to describe the flavor, with its delicious melting flesh, full of rich creamy juice and a delicate wild tang all its own. In autumn the foliage of the

BLUEBERRY

You Enjoy Eating These Old-fashioned Blueberries.

Plant Blueberries where there is good sunlight about 4 ft. apart. No pruning is necessary. Water plants well the first year for best results.

Plum Trees

For Bearing Age Trees, See Page 32

THE market for Plums is rarely overstocked. They are easy to grow and will do well on any land that is not too wet and will withstand the most severe winter. Being generally free from disease, the plum is commercially profitable and most desirable for family use.

PRICE LIST OF PLUM TREES

Grade	Age	Height	Each	Per 10
XXX	2 and 3 yr.	5 to 7 ft.	\$0.75	\$5.00
XX	2 and 3 yr.	4 to 6 ft.	.70	4.00
X	2 and 3 yr.	3½ to 5 ft.	.65	3.00

ABUNDANCE—The chief asset, which has given the variety its great popularity, is its name, abundance of fruit. Tree bears early, a pinkish red, changing to a darker red mottled with thin bloom. August.

BRADSHAW — The trees grow large and well formed, bear regularly and heavily. The plums are large, attractive in appearance, being a light purplish red, changing to dark reddish at maturity. Keeps and ships well. August.

BURBANK—Most profitable variety for the market. The most popular Japan sort. A good keeper and an excellent shipper. Valuable for canning and market. Fruit is large, excellent quality, juicy, tender and fine flavored. Skin is dark red, over a yellow ground, thick bloom. Can be picked before ripe and will color perfectly. The tree is vigorous, very productive and needs close pruning. June.

FINGER LAKES PRIDE—The plum we recommend, for we have thoroughly tested this variety. A beautiful, large, dark purple, very showy plum, often measuring 2 inches in diameter; fruit is firm, juicy, and a most delicious flavor. This variety is an excellent canner, and owing to its size and attractiveness is bound to become popular. Tree, round-topped, vigorous and productive. \$1.00 each; \$9.00 per 10.

GERMAN PRUNE—Large, dark blue, rich and agreeable flavor; well thought of for drying and therefore commercially desirable. September.

LOMBARD—Probably the most widely planted in America, medium size, violet-red in color, hardy and productive, having a good market value. Adapts itself to any soil and will thrive in any climate. A healthy, productive and regular bearer. Extremely hardy. Excellent for canning and preserving. August.

RED JUNE—Closely follows Abundance and Burbank in popularity. The color is a mottled, garnet-red overlaid with thin but very distinct and delicate bloom. Ripens early in July.

REINE CLAUDE—For the qualities that gratify the sense of taste, richness of flavor, consistency and texture of flesh, the Reine Claude is unsurpassed. The trees are very productive and bear regularly. Fruit ripens in September and is of yellowish-green.

SHROPSHIRE DAMSON—It is the best known of the Damsons, being found not only in nearly all commercial plantations, but in the smallest home collections as well. Shropshire is enormously productive, bearing its load of fruit year after year, until it is a standard among fruits for productivity and reliability in bearing, which is late in season. October.

WICKSON—The largest of the oriental plums, if not the largest of all plums. Its handsome color of red and distinct form make it very attractive. A good market variety. September.

SHROPSHIRE DAMSON

This is what does it. Deep digging of young trees to preserve every root fibre, on one of the Finger Lakes Nursery Farms. It takes money to grow fruit trees right.

PEAR TREES

STANDARD PEARS

The home orchard is not complete without pears and they are a very profitable commercial crop in nearly all parts of the country. Pears will do well on almost any good soil, but thrive best in rather heavy clay or loam. The quality of the pear is much improved by picking before maturity and by proper ripening indoors.

PRICE LIST OF STANDARD PEAR TREES

Grade	Age	Height	Each	Per 10
XXX	2 and 3 yr.	5 to 7 ft.	\$0.75	\$5.00
XX	2 and 3 yr.	4 to 6 ft.	.70	4.00
X	2 and 3 yr.	3 1/2 to 5 ft.	.65	3.00

PARCEL POST SIZE—First-class, 3 ft. trees, well rooted, can be sent by Parcel Post, 3 for \$1.00, Postpaid.

BEURRE D'ANJOU—The standard market pear for late fall and early winter. Large, greenish-yellow fruit tinged with dull red and russet, flesh white, buttery, fine grained and richly flavored. Looks and keeps well until mid-winter. October to January.

BEURRE BOSCH—One of the best of the russet varieties, having distinctive, long neck. Highly flavored and well suited for storage and marketing. October to December.

BARTLETT—The most popular pear on the American market. A general favorite both for home use and market; the leading variety for canning; fruit always commands top prices. Fruit is large and attractive; yellow tinged with red, buttery, juicy and high flavored.

CLAPP'S FAVORITE—This is a very large, long, yellow pear, tinted with crimson and russet. Flesh is fine grained and white, juicy and exceptionally tasty. Ripens about ten days ahead of Bartlett. August to September.

DUCHESSE D'ANGOULEME—Attractive for its enormous size. Bears early, often fruiting the season after planting. Fruit is bright golden yellow, with white, juicy flesh and excellent flavor. The most popular market variety as a Dwarf. October and November.

FLEMISH BEAUTY—Has long been considered an old and highly esteemed variety. Its color a greenish yellow and brown; is very juicy and sweet. Ripens early in season. Tree is vigorous and productive. September to October.

KIEFFER—Its large size, handsome appearance and remarkable keeping and shipping qualities make it a very profitable market variety. In great demand as a canning pear, as it retains its light color well and possesses a rich, vinous flavor. Commands the highest price on the market. Fruit is large, golden-yellow, tinged with red; trees are strong, vigorous and very healthy. Bears young and heavily and makes a large tree. October and November.

SHELDON—Large, round, greenish-yellow in color, covered with light russet. It is very juicy, and has a tasty flavor. The tree is a fine grower and a good bearer. October to November.

FERTILIZERS

Animal manure is best for the average plant. Sheep manure is quickest acting; cow manure lasts longer and makes soil solid; horse manure leaves soil in best physical condition, while fowl manure is concentrated and should be applied with care.

Bone meal is one of the best to apply, being easy to handle and effective.

Nitrates and complete commercial fertilizers can be used to advantage, but don't apply all at one time, give in broken doses.

FRUIT GROWERS

For Quantity Price, See Page 27.

Cherries

For Bearing Age Trees, See Page 32

PRICES OF ALL VARIETIES OF SWEET CHERRY TREES

Grade	Age	Height	Each	Per 10

PARCEL POST SIZE—First-class, 3 ft. trees, well rooted, can be sent by Parcel Post, 3 for \$1.00.

SOUR CHERRIES

EARLY RICHMOND—Has long been the leading sour cherry of its season, the first of its kind in the markets. It is a very good culinary fruit and when well ripened may be eaten out of the hand. July.

ENGLISH MORELLO — Is the best standard late sour cherry. The fruit is handsome in appearance, bears harvesting and shipping well. Ripens in August.

MONTMORENCY—It leads in the demand for this fruit in the markets, for the cannery and for home use as a culinary cherry. Less susceptible to brown rot than any other variety, because of its firm flesh and thick skin. It stands shipping well. Best money maker in the cherry orchard. Fruit is beautiful, large, red, acid. Last of June.

SWEET CHERRIES

BLACK TARTARIAN — Is widely known as the favorite dooryard and roadside sweet cherry. It has a very sweet, rich flavor and is earlier than most sweet cherries, bearing in June.

GOVERNOR WOOD—Heart-shaped and large. Light yellow and red. Tasty and sweet. We highly recommend this variety on account of its earliness, beautiful appearance and delicious flavor. Last of June.

WINDSOR — Among the best in quality, deep red in color. Flesh firm and rich. Especially successful in the Eastern States.

NAPOLEON BIGARREAU (O x-heart) — An ideal light colored sweet cherry, much sought after by canners and fruit dealers; very attractive coloring of pale yellow with amber cheek. Fruit large, heart-shaped; flesh firm and of delightful flavor.

WINDSOR CHERRIES

We are interested in Fruit Growing and will be more than pleased to help you select the varieties best suited for your requirements and location.

For Quantity Price, See Page 27.

TIME-SAVING, EARLY-TO-BEAR 5 YEAR FRUIT TREES

If you have room for only a few trees, don't wait years for results. Plant our big, five-year trees and pick fruit in the shortest possible time. These trees are not ordinary over-grown stock, generally offered, but grown especially for this purpose, root pruned, transplanted, cultivated. We have spent the time—the immediate enjoyment is yours. If you want big trees for immediate results, order today.

Finger Lakes' Early-to-Bear Trees Have Been Scientifically Cared for and Do Not Need Pruning.

It is impossible to accurately tabulate the age and height at which fruit trees will bear, due to varying conditions, soil, climatic conditions and care given; also, varieties differ. These early-to-bear trees have been scientifically cared for in our nurseries for at least five years, and will run from 7 to 8 feet, according to the nature of the variety.

5-Year, Early-to-Bear, Heavily Rooted Fruit Trees

BIG TREES

BARTLETT PEAR—The Perfect Fruit

BIG, healthy, ready-to-bear trees. Heavily rooted and symmetrically branched, with well-developed fruit spurs, ready to yield full-sized, juicy fruit in the quickest possible time.

You are relieved of the years of waiting, the training and development necessary to produce a high-grade, heavy bearing fruit tree.

FINGER LAKES PRIDE PLUM

DELICIOUS APPLE
All the Name Implies

FOUR BIG TREES

- 1 Finger Lakes Pride Plum
 - 1 Elberta Peach
 - 1 Delicious Apple
 - 1 Bartlett Pear
- ALL FOR
\$5.00

BLACKBERRIES

EARLY-TO-BEAR PLANTS

Price of Strong, 2 Year Plants, 10 for \$1.25; 25 for \$2.00; 100 for \$5.85.

Grapes, Berries, etc.—If by Parcel Post, add 15c extra.

BLACKBERRIES will yield as high as 4000 quarts per acre, if thoroughly cultivated, and the fruit will sell right out of the field. Planted between rows of young trees, they will not only pay for themselves, but pay for the trees as well. A liberal use of berries and other good fruits will save doctor's bills. Will do well on land where other fruit could not succeed.

BLOWERS—An upright, mammoth grower; very hardy and enormously productive. A single plant produced over 2000 berries. It commences to ripen about middle of July and bears about two months.

ERIE—The mammoth blackberry. An extremely large, handsome and well flavored berry, coming into market early and demanding top notch price. Very highly recommended by our State Experimental Station here at Geneva. This big blackberry is a strong, healthy grower, extremely hardy and a safe, dependable variety to plant. The fruit is exceedingly sweet, and positively the best flavored blackberry. The Erie will never disappoint. Our big, healthy plants will bear fruit same season they are planted.

SNYDER—Medium size. Plants hardy, healthy and vigorous. This blackberry bears well and is considered a profitable berry.

LUCRETIA DEWBERRY—The standard dewberry. It ripens in advance of the earliest blackberry, is sweeter and equals in size the best varieties of this near relative. Of slender, trailing habit, the vines are entirely hardy except in the far North, succeed on the all soils (even very sandy) and are exceedingly prolific. The berries are of large size, sparkling jet black and of high quality.

cellent Flavor.

Early-To-Bear Raspberries

PRICES OF RASPBERRY BUSHES

No. 1 Plants: 10 for \$1.25; 25 for \$2.00; 100 for \$5.85; 1000 for \$30.00.

BLACK RASPBERRIES

CUMBERLAND—An early season, high quality berry; largest of all the black raspberries; possesses shipping qualities as good as any; a good variety for the market.

PLUM FARMER—Hardy grower, good for all berry sections. Thick meated, with a dark and brilliant bloom. Ripens early and commands a big price.

PURPLE RASPBERRIES

COLUMBIAN—For canning purposes it is undoubtedly the best raspberry in cultivation, yielding as high as 8000 quarts per acre. Perfectly hardy and grown largely for evaporating. Fruit is firm and adheres to the bush well; very large, reddish purple, juicy and delicious; wonderfully prolific. Should be planted 2 feet further apart than any other variety.

RED RASPBERRIES

THE GIANT NEW JUNE—An outstanding, worthwhile new variety. Mammoth in size, rich in flavor, sweet and very juicy. The plants are hardy, yield early and heavy, and is distributed over a long season. The fruit is a bright, handsome red, and ripens the earliest of all Red Raspberries. The choice of all berries on local market. 10 for \$2.00; 25 for \$2.75; 100 for \$6.50. Strong, early-to-bear plants, balled in moss.

CUTHBERT (Queen of the Market)—A remarkably strong, hardy variety; stands the Northern winters and the Southern summers better than any other variety. Season medium to late.

ST. REGIS—This everbearing red raspberry bears the first season. One of the greatest ever introduced. Plants of the St. Regis put out in the fall or early April gave ripe berries on the 20th of June. For weeks thereafter the yield was heavy.

Early-to-Bear Strawberries

THAT ARE DEPENDABLE

We are exceedingly fortunate in being able to offer our patrons, this season, a limited quantity of these new Strawberries, originated and recommended by the New York State Experimental Station here at Geneva. These varieties ripen in succession. Plant some of each and enjoy your favorite fruit throughout the season. There is absolutely nothing better than these big, handsome, excellent flavored berries.

Price, "Three B" varieties below, strong, well rooted, certified, ready-to-bear plants, 15 for \$1.00; 100 for \$3.75; 1000 for \$27.50.

BEACON (Early)—After testing out all the early strawberries the Station finds Beacon to be the very best early variety in existence. It is also very productive and the handsomest of all. Large, glossy, red, juicy, firm, refreshing.

BOUQUET (Mid-Season)—Destined to be the main crop mid-season market strawberry. Big in plant, berry and crop. The berries are glossy, red, juicy, firm, deliciously flavored. Ships long distances without injury.

BLISS (Late)—The supreme quality strawberry. It marks the utmost advance in the development of better fruit. It is sprightly, sweet, richly fragrant, highly flavored, taste satisfying, refreshing, glossy red, large, very productive. The berries bring the price among people who know.

EVERBEARING VARIETIES

20 for \$1.00; 100 for \$3.25; 1000 for \$25.00.

CHAMPION—The best and most productive of all everbearing varieties. The berries are of good size, attractive red color and of a good flavor. Will produce an enormous crop in June, July and again in the fall.

PROGRESSIVE—A wonderful Everbearing Strawberry. The June yield is so heavy that it is a profitable variety at this time, and in the fall it yields freely until freezing weather. Deep crimson, glossy and of good quality. Vigorous and hardy.

SUPERB—Among the best known and most largely planted. The berries are nearly round, smooth, dark crimson, glossy, and of sweet flavor. It yields heavily in June and is one of the most prolific again in the fall.

JUNE BEARING STRAWBERRIES

EARLY-TO-BEAR PLANTS

25 for \$1.00; 100 for \$2.50; 1000 for \$20.00.

All Varieties Listed are Perfect Varieties

BIG JOE—Large, brilliant red. Early.

BRANDYWINE—Large crimson berries. Mid-season.

GIBSON—Extra large; dark glossy red. Mid-season.

GLEN MARY—Medium size, bright deep red. Mid-season.

GANDY—Handsome deep red. LATE.

SENATOR DUNLAP—Berries glossy red and good size. Early.

WM. BELT—Extra large; brilliant glossy red. Mid-season.

BLISS (A Mammoth)
Sweet and Excellent Shipper, This Big Strawberry Leads Them All.

THE CARE OF STRAWBERRIES

DIP IN WATER AS SOON AS RECEIVED and if you can't PLANT AT ONCE, bury the roots in moist, shady ground until ready to set out. Don't allow them to dry out or neglect them in any way. For garden culture, plant 15 to 18 inches apart; for field culture set in rows 3 feet apart, and 15 to 18 inches apart in rows.

GOOSEBERRIES

DOWNING—Large, handsome, pale green gooseberry of splendid quality. Soft and juicy. 35c each; 10 for \$3.00; 100 for \$25.00.

HOUGHTON—A very productive, hardy berry of pale red; sweet and juicy. 2 year old bushes, 30c each; 10 for \$2.50; 100 for \$22.50.

JOSSELYN (Red Jacket)—Large size, prolific and hardy; of best quality. 2 year old bushes, 50c each; 10 for \$4.50; 100 for \$40.00.

IMPORTANT NOTICE

Due to a Federal Quarantine, Currants or Gooseberries cannot be shipped into the following States: Arizona, California, Colorado, District of Columbia, Delaware, Georgia, Idaho, Kansas, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Mexico, North Carolina, Rhode Island, South Carolina, South Dakota, Tennessee, West Virginia, Washington, Wyoming and Canada.

PEACH TREES

PRICES OF ALL VARIETIES OF PEACH TREES

Grade	Age	Height	Each	Per 10
XXX	1 year	4 to 5 ft.	\$0.60	\$5.00
XX	1 year	3 to 4 ft.	.50	4.00
X	1 year	2 to 3 ft.	.40	3.00

X Grade of Peach Trees can be sent by Parcel Post, 3 for \$1.00, Postpaid.

BELLE OF GEORGIA—Elicits praise from all who know it because of the great beauty of its fruits. At its best, it is one of the glories of the peach orchard, the fruits being large, creamy-white with a beautiful crimson cheek. Is an excellent shipper. August. Freestone.

CARMAN—A general favorite in nearly every peach region on this continent. Red, splashed with a darker red on a creamy-white background. Fruit matures early. August. Freestone.

CHAMPION—This is the best of the white freestone varieties. Skin creamy-white with red flush. Extremely hardy. Late August. Freestone.

CRAWFORD'S EARLY—This peach has all the characters that gratify the taste. Color, rich red splashed and mottled with darker red and golden yellow. Matures in mid-season. First of September. Freestone.

CRAWFORD'S LATE—Fruit is unsurpassed in appearance and scarcely equalled in texture of flesh and richness of flavor. Color, tints of red and yellow. Fruit matures late. Used extensively in commercial orchards. Last of September. Freestone.

CROSBY—Is noted for its hardiness of bud, so marked, it is often called the "Frost-Proof" Peach. Matures late in season. Last of September.

ELBERTA—Leads all peaches in quantities planted, the most popular in the market. It is grown with profit in every peach growing state in the Union. Being hardy in budding and a consistent yielder of good crops, adaptable to almost any climate. Early September. Freestone.

GREENSBORO—One of the leading early, white-fleshed peaches. Adapted to a great variety of soils. Good shipper. Bears early. Color, creamy-white, blushed with red; flesh white, very juicy, tender and melting; mild, sprightly flavor. Freestone.

HALE—This is a new peach combining the most desirable qualities of the other varieties. Brilliantly colored with deep golden yellow and red. Flesh deep yellow, firm and fine grained. Stone is exceptionally free. Late August. Freestone.

HILL'S CHILI—Medium sized, yellow peach. Skin yellow, shaded with dark red. Very rich and sweet. First of September. Freestone.

ROCHESTER—It recommends itself for commercial purposes and home consumption. It is of good size, yellow, freestone and among the best shippers. Fruit golden yellow and red, highly flavored. Juicy and delicious. The tree is a hardy and young producer. Middle of August. Freestone.

THE NEW WILMA—This big, juicy peach is of distinctive merit. Fruit is large and handsome and of good quality, yellow mottled and blushed with showy dark red. The trees are vigorous, productive and very hardy. A dependable, productive peach. Ripens about the middle of September. We cannot recommend this variety too highly for the home garden or for commercial planting. Originated here in Geneva at our State Experimental Station. Price of the New Wilma, 4-5 ft., \$1.00 each; 10 for \$9.00. 3-4 ft., 75c each; 10 for \$6.00. 2-3 ft., 50c each; 10 for \$4.00.

THE NEW
HALE

Larger Than Elberta, Ripens Earlier and a Much Superior Flavor.

Strong, 2-year No. 1, extra size	\$.30	\$2.50	\$20.00
Concord, 2-year No. 125	2.00	15.00
Caco (New)60	5.00	40.00

AGAWAM—Red in color; skin thick and berries large. Ripens early and is very vigorous. Late September.

BRIGHTON—An almost seedless variety of good quality; clusters are exceptionally large; vines are hardy. Middle of September.

CAMPBELL'S EARLY—One of the best of the early varieties; a comparatively new grape, especially successful for market purposes; flavor rich and sweet; clusters are large and handsome, black with light purple bloom; vine strong and vigorous grower.

CATAWBA—A good, long lived market variety; much in demand for wine and champagne; large berries, copper-red and purplish. Requires a long season. Excellent keeper. Late September.

CONCORD—Leading commercial grape. It can be produced cheaper than any other grape on the market, owing to its adaptability to any soil and its high degree of fruitfulness. Exceptionally hardy and healthy. Grape juice is made almost entirely of Concord. Bunches large and compact, berries large, glossy black with a rich bloom; good quality. Very reliable and profitable. Requires long season.

DELAWARE—Small bunches and small berries; juicy and sweet, a highly satisfactory table grape; thin skin. Free grower, perfectly hardy.

MOORE'S DIAMOND—Leading early white grape with yellowish tinge; bunches large, very few seeds; juicy and free from pulp. Vine vigorous in growth, bears early September.

MOORE'S EARLY—A large, purplish-black berry; sweet and of good quality, ripens about ten days earlier than Concord. Vine vigorous and hardy.

NIAGARA—A leader among the white varieties; a highly profitable market grape; both the berry and bunch are large, greenish-white tinted with pale yellow when ripe. Skin is thin, but tough; plant is hardy and a good yielder.

SALEM—Coppery-red berries, large; flesh juicy and of fine quality. Very productive. Ripens in September.

THE NEW CACO—Red; has a most delicious flavor of the highest quality. Cross between Concord and Catawba. The vines are very strong growers, hardy, healthy and prolific. Ripens early.

WORDEN—Bunches large, almost black when fully ripe; berries large, thin skinned; juicy, highly flavored; about ten days ahead of Concord.

CURRANT BUSHES

Prices, 2 year, No. 1 Plants: 3 for 75c; 10 for \$2.00; 100 for \$15.00 (Except as noted)

CHERRY—Red currants of good quality. Fruit large.

RED CROSS—Clusters are long and of medium size; berries are large in size. Probably the sweetest of all varieties.

PERFECTION—Color red, a size larger than the Fay. Clusters average longer and the size of

berries is maintained to the end of the bunch. Price of the Perfection is as follows: Each, 40c; 10 for \$3.50; 100 for \$30.00.

FAY'S PROLIFIC—A popular red currant. As its name indicates, it is very productive and hardy.

WILDER—A new red currant, with large, fine flavored fruit of a bright, attractive red color.

XXX	4 to 5 ft.	\$0.75	\$7.00
XX	3 to 4 ft.	.65	6.00

J. L. BUDD—Ripening in August; is a very vigorous grower and profuse bearer. Fruit large, white, with red cheek; sweet, juicy. Best variety.

EARLY MOORPARK—Is a deep orange or brownish-red; flesh firm and juicy; ripens in early August.

Horseradish

Will stand a great deal of hardship and exist in same soil year after year. 10 for 85c; 25 for \$2.00; 50 for \$3.25; 100 for \$5.00.

Rhubarb

For family or market. Earliest available material in the spring for pies and sauce. Its health-giving qualities make it very beneficial as a spring tonic. Should be in every home garden.

PRICES, 2 YEAR, STRONG ROOTS

Each, 20c; 10 for \$1.50; 25 for \$3.00; 100 for \$10.00; 1000 for \$90.00.

MYATT'S LINNAEUS—The best variety for general use. Stems large, tender and of refined flavor. Yields abundantly.

Extra Fine Asparagus

25 for 75c; 100 for \$2.00; 1000 for \$12.00.

The earliest and finest of spring vegetables, very profitable, rich and delicious flavor; very healthy. A bed once planted suffers no deterioration for thirty years or more, if it is properly attended to and well manured. Most delicious when cut from your own garden. Easy to grow.

WASHINGTON—A new rust-resistant variety, thoroughly tested. Produces more asparagus, has larger and more tender stalks and has a rich, delicious flavor. The stalks are dark green, with a heavy purplish overtone. Rightfully called "the vegetable aristocrat."

CONOVER'S COLOSSAL—This is the standard of high quality; can be recommended without hesitation. Remarkably tender and fine flavored.

PALMETTO—The most popular variety both for home garden and commercial planting. Larger, more productive and earlier than Conover's Colossal.

See Discount for Early Orders on Page 2

FERTILIS TABLETS

Give New Life to Roses and Shrubs—Make Flowers Last Longer

Fertilis Tablets keep your Roses, Shrubs, Vines, Ferns and Potted Plants healthy and beautiful. These little tablets feed the roots, thereby producing an abundance of bloom and healthy colors.

FERTILIS DOUBLES THE LIFE OF CUT FLOWERS. When arranging cut flowers each day with fresh water, drop in a Fertilis Tablet. Flowers will hold their original freshness and beauty much longer.

Fertilis comes in two convenient size containers. In packages of 50 Tablets, for 25c; or tins of 1000 Tablets, for \$2.00. Simple directions for use will be found in each package.

Dwarf Fruit for Garden Homes with Limited Space

ABUNDANCE PLUM

Why not plant a charming little fruit tree in place of a shrub or tree, and each year pick quantities of delicious, juicy fruit for eating and cooking instead of "just leaves"?

Dwarf Fruit Trees are especially desirable for many reasons:

1st—Large sized fruit, identical with same variety in standard trees.

2nd—Take less room in field or garden. A fact that is noteworthy, especially to those who have limited garden space.

3rd—Fruit can be picked from ground or small stepladders.

4th—Dwarf trees are very productive, bearing abundantly for home use.

5th—Being low-headed, they are more easily taken care of and shade less ground, which can be devoted to other garden crops.

You can plant dwarf fruit trees for a hedge along or through your garden, requiring very little space. Used as a filler in an orchard they are of great commercial value.
